

OUR PROVIDERS ARE HERE FOR BOTH IN-PERSON AND TELEHEALTH VISITS

In-Person visits continue to be available with a few changes. We are asking you to call when you arrive for your appointment and we will call you back when we are ready for you to enter the building. We are doing this in order to maintain social distancing.

All patients are being asked to bring and wear a mask in the office. Unless the patient requires assistance, we ask that only the patient come in the building for their appointment. Anyone with the patient will also be required to wear a mask.

When you enter the building, your temperature will be checked and you will be asked COVID-19 screening questions. Any positive answers may require that we change your visit to Telehealth.

Telehealth visits are offered for your convenience until the end of May. You are able to connect with your provider by using your smart phone or computer. Just request a Telehealth visit when scheduling your visit. (Not all appointments are eligible for Telehealth)
